# Life Will Find a Way - Flipping the Script on the Panopticon - Meet Dr Sarah Forbes-Robertson

**SPECIAL EVENT - BY POPULAR DEMAND**

After captivating audiences at our Dubai event, we're excited to welcome Sarah back for an exclusive one-on-one conversation with our Regional Director, Dr Vanessa Lynch. As Course Director at Coventry University and founder of the pioneering Cold Case Unit, Sarah has redefined how forensic science is taught and applied, giving students the chance to work on real-life cold cases with international partners.

## IN THIS SESSION, SARAH WILL SHARE HER UNIQUE AND INNOVATIVE INSIGHTS INTO:

- Why robust, ethical DNA laws and databases are essential for justice and human rights
- How outdated or discriminatory policies risk harming communities
- Creative ways to ensure forensic science evolves with society and technology
- And even how to "stay young into the bargain"!

## HOSTED & MODERATED BY:

**Dr Vanessa Lynch** | Director, DNA for Africa

Extensive experience shaping DNA policy and advancing legislative frameworks with governments.

## FEATURED SPEAKERS:

**Dr Sarah Forbes-Robertson** | Course Director for Biological and Forensic Sciences at Coventry University and founder of the Cold Case Unit, where students tackle real investigations with global partners. Her research explores innovative DNA applications, and she brings a fresh, unique perspective on forensic science.

**Expect a perspective on forensic science that challenges convention and inspires new thinking. Don't miss this rare opportunity to hear Sarah flip the script on DNA, justice, and the future of forensic science. REGISTER TODAY!**
